

Phillip-Bryan Kouokam

FULL-STACK ENGINEER

Houston, Texas

Portfolio: [philbk.dev](#) (214) 309-2150 kouokambryan@gmail.com [GitHub](#) [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-Stack Engineer specializing in React, Node.js, Express.js, MongoDB, and AWS. Built and deployed three production MERN applications and a production portfolio ([philbk.dev](#)) that showcases a systems-first approach to engineering. Experienced in building responsive user interfaces, secure REST APIs, authentication systems, and cloud-integrated applications from development through deployment.

TECHNICAL SKILLS

Frontend	React • JavaScript (ES6+) • HTML5 • CSS3 • Tailwind CSS • React Router • Context API • Vite
Backend	Node.js • Express.js • REST APIs • JWT Authentication • Mongoose
Databases & Cloud Infrastructure	MongoDB Atlas • AWS • EC2 • S3 • Lambda • IAM • VPC • Elastic Load Balancing • Auto Scaling
Deployment & Tools	Git • GitHub • Vercel • Render • Postman
Engineering Practices	Responsive Design • Accessibility • Performance Optimization • Debugging • Component Architecture • API Integration

SELECTED ENGINEERING PROJECTS

CalorieBank

[Portfolio Case Study](#) [Live Demo](#) [GitHub Repository](#)

Designed and deployed a full-stack nutrition platform centered on a calorie banking system that combines personalized TDEE calculations, secure authentication, food logging, and cloud-based image uploads.

- Architected secure authentication, protected routing, and persistent user profiles using JWT, Express.js, and MongoDB to support personalized nutrition tracking.
- Designed reusable React components and Context API state management to deliver a responsive, maintainable user experience across desktop and mobile devices.
- Integrated AWS S3 image uploads, automated calorie banking logic, and cloud deployment using Vercel and Render.

React Node.js Express.js MongoDB JWT AWS S3 Tailwind CSS Vercel Render

SpendWise

[Portfolio Case Study](#) [Live Demo](#) [GitHub Repository](#)

Built a full-stack personal finance platform supporting authenticated expense tracking, receipt uploads, budgeting, and interactive financial dashboards.

- Implemented secure authentication and persistent CRUD operations using the MERN stack.
- Developed interactive financial dashboards and integrated AWS S3 receipt uploads.

React Node.js Express.js MongoDB JWT AWS S3 Recharts

Habit Tracker

[Portfolio Case Study](#) [Live Demo](#) [GitHub Repository](#)

Developed a production-ready MERN application for secure habit tracking with authenticated CRUD operations.

- Built authentication, authorization, and global state management using JWT and React Context.
- Resolved deployment issues involving CORS, environment variables, and MongoDB Atlas connectivity.

React Node.js Express.js MongoDB JWT Context API

CERTIFICATIONS

AWS Certified Solutions Architect – Associate

Amazon Web Services

IBM Front-End Developer Professional Certificate

IBM

EDUCATION

Computer Science Coursework

University of Houston

Dean's List (Multiple Semesters)
